● Apr 12, 2024

The State of React Native in 2024

A deep dive into the New Architecture, Bridgingless Mode, and what it means for the future of mobile development.

● Mar 28, 2024

Mastering FlashList Performance

Techniques for optimizing large lists in React Native. How to recycle views effectively and avoid blank spaces.

● Feb 15, 2024

Expo Router: A First Look

Moving from React Navigation to file-based routing. Pros, cons, and migration strategies for existing apps.

Experience

● Senior Mobile Engineer at TechCorp

2021 – Present

Leading the React Native migration. Reduced app bundle size by 35% and improved TTI by 40%. Mentoring 3 junior developers.

● React Native Developer at AppStudio

2019 – 2021

ALEX.RN

Developed and shipped 5+ apps to App Store and Play Store. Implemented CI/CD pipelines using Bitrise.
